Delta Optical Titanium 9x63 Binoculars Highly valued hunting binoculars with reinforced construction. Huge brightness (63 mm lenses) combined with a 9x magnification gives a 7 mm output pupil - optimal for young hunters and those who value high surface brightness of the image. Good visibility of details and high-quality anti-reflective layers guarantee full satisfaction from the purchase. Also works well as general-purpose binoculars (yachting, birds etc.) Includes a neck strap, lenses covers and glasses, and a carrying case with a belt
