

TISSUE AND MASK TOOLS - 30 biological preparations in a suitcase Professional biological preparations. The set contains the following preparations: 1. connective tissue, WM (loose connective tissue, WM) 2. glassy barrel, Sec. (hyaline cartilage, sec.) 3. elastic bones, Sec. (elastic cartilage, sec.) 4. spinal cord, CS (spinal cord, CS) 5. clavict, SS (clavict, SS) 6. the essence of the bones, sec. (dense bone, sec.) 7. Smooth muscle WM (smooth muscle teased preparation WM) 8. skeletal muscles, LSCS (skeletal muscle, LSCS) 9. Rabbit necrosis, Sec. (tendon rabbit, sec.) 10. squamous epithelium smear from human mouth 11. WM flat epithelium (simple flat epithelium WM) 12. layered epithelium Sec. (stratified flat epithelium, sec.) 13. epithelial epithelium, Sec. (ciliated epithelium, sec.) 14. skin, hair bags Sec. (human skin Sec, through hair follicle) 15. skin, hair bags Sec. (human skin Sec, through hair follicle) 16. lung, Sec. (lung, sec.) 17. lung vessels with blood vessels, sec. 18. kidney, Sec. (kidney sec.) 19. artery and vein, CS (artery & vein, CS) 20. human blood, smear (human blood, smear) 21. lymph node Sec. (lymph node, sec.) 22. thyroid gland 23. bowl of the stomach, sec. (wall of stomach, sec.) 24. small intestine, CS (small intestine, CS) 25. question, Sec. (liver, sec.) 26. myocardium, Sec. (cardiac muscle sec.) 27. kucleus, Sec. (testis sec.) 28. ovary, Sec. (ovary, sec.) 29. kidney LS (kidney LS) 30. human chromosome (human chromosome)
