The perfect Camrock Beeg Z60 photo backpack - ideal for transporting cameras, lenses or astronomical accessories. Camrock Beeg Z60 is the highest quality, well-designed backpack with a large capacity, functionality and convenience of use. Made of very high quality materials ensures high durability and safety of the transferred equipment. The backpack has a separate compartment for a portable computer (laptop) and a practical rain cover. Characteristics: can accommodate 2 bodies, 8 lenses, a flash and other accessories, reinforced compartment for a portable computer, mounting to a tripod, a retractable rain cover, roomy front compartment, many pockets and partitions, a hole for headphones, adjustable shoulder straps, chest belt, waist belt. The Camrock Beeg Z60 backpack has a number of pockets and three compartments: 1. The main compartment - consists of fourteen compartments for photographic equipment. Adjustable dividers allow you to modify the interior of the chamber and ensure optimal use of space and perfect fit to the equipment. Thanks to such a large amount of space, the backpack can accommodate any photographic equipment and a lot of additional accessories. All walls are stiffened and filled with soft material to protect the equipment. 2. Laptop compartment up to 17 inches in size - stiffened and lined with a thick layer of soft protective material, closed to protect against rain, covered with a zipper and security buckle. 3. The front chamber - very capacious, has a number of compartments, pockets and a carabiner. Will, for example, put on a jacket, bottle, additional photographic accessories, documents, keys, pens, a book, etc. The backpack's carrying system is specially profiled, comfortable, breathable braces with adjustable length. Braces have a safety chest strap and special tapes that allow you to attach additional cases and items such as: MP3 Player or mobile phone. In addition, the backpack has a stabilizing hip belt with a buckle and a comfortable carrying handle in a vertical position. On the side there are special holders designed for carrying a tripod or additional accessories. Breathable material on the wall adhering to the back provides ventilation when worn. There is a hole for headphones on the top of the backpack. It gives you the opportunity to listen to music even in extreme weather conditions without worrying about wetting the equipment. The set includes a retractable rain cover, which additionally protects the equipment from the effects of weather conditions.
