

teleskopy.pl

Telescope equipped with a fully computerized remote control with a base of over 4000 astronomical objects. An easy-to-use and fast-decomposed, adjustable tripod makes the telescope ready to use and ready for use in just a few minutes. The innovative SkyAlign leveling technology and the red LED diode included in the set make the whole procedure of setting the telescope easy. The angled connector, included in the set, enables observation of terrestrial objects.

OFFERED TELESCOPIC LANDS TO START OBSERVATIONS IN THE FIRST FALLING NIGHT - INCLUDES ALL NECESSARY ACCESSORIES

Technical parameters

- Optical system: refractor (achromatic doublet)
- Lens diameter: 60 mm
- Focal length of the lens: 700 mm
- Lighted: 1 / 11.7
- Theoretical range: 10,5mag
- Maximum useful magnification: 120x
- Weight: 4.5 kg

Usage Moon the planet star clusters nebulae PC control Equipment

The set includes the following accessories:

- 1.25" focuser
- 1.25" standard glasses: 25 mm (28x magnification) and 9mm (78x)
- StarPointer scopes (collimator)
- Azimuthal computerized GOTO assembly, controlled by a remote control, with a base of 4000 astronomical objects
- Aluminum steel field tripod with accessories shelf
- Angle attachment
- Accessories stand
- Educational CD "Sky Level 1" (in English)

Warranty 2 years

Warning! This device focuses a lot of light. Looking directly at the sun through this device can result in partial or complete loss of vision. For the observation of the Sun, we recommend the safest method of spectacle projection, that is, projecting the image of the target of our day star on a piece of paper.
