The TS Marine MX binoculars with 7x magnification are universal equipment for sailors, bird and nature observation as well as excellent astronomical binoculars under the rural sky. We recommend this binoculars for young hunters - an exit pupil equal to 7 mm is suitable for people over 40 years of age, and in combination with a large surface brightness guarantees excellent visibility in dusk conditions. Features of the MX Marine series of binoculars TS MX Marine binoculars are characterized by a very strong construction - a solid metal body is covered with rubber. These binoculars can withstand even significant impacts or a fall from a low height. They are not harmed by high humidity, rain or water. They are protected by O-rings and filled with nitrogen, which makes them good on the water (sailing, kayaking, motorboating), as well as during natural observation. Miles of astronomy will appreciate the flat field of view (no distortion of the image), very good correction of chromatic aberration and high efficiency of the optical system. The TS MX Marine binoculars have a focusing system for each eye in combination with a large depth of field. Thanks to this, high mechanical resistance and comfort have been achieved - binoculars do not require frequent focusing on objects at different distances. Technical parameters

- â€¢ Lens diameter: 50 mm
- â€¢ Zoom: 7x
- â€¢ Output: 7.1 mm
- â€¢ Construction prisms: porropryzmatyczna
- â€¢ Material of glass elements: optical glass BaK-4
- â€¢ Anti-reflective layers: MC on all optical surfaces, blue, total system efficiency 95%
- â€¢ Field of view: 7.5 ° / 131 m / 1000 m
- â€¢ Eye relief : 20 mm
- â€¢ Relative brightness: 50
- â€¢ Twilight efficiency: 18.7
- â€¢ Adjusting the focus: individually for each eyepiece
- â€¢ Minimum distance of observation: 6 m
- â€¢ Range of eyepieces / output gauges: 56 mm - 74 mm
- â€¢ Water resistance: YES
- â€¢ Nitrogen filling: YES
- â€¢ The option of connecting a tripod: YES
- â€¢ Weight: 1600 g
