

PENTAFLEX XSJ 20x is an educational microscope with a solid, simple structure. It can be used as a biological microscope in the light passing through (illumination with a mirror) or a strong, 20-fold magnifier when lighting an object from above, eg using a table lamp. The articulated arm of the eyepiece, movable in a plane parallel to the table, allows you to observe any area of the element fixed on the table. The base of the microscope and the vertical rod (body) are made of metal. Technical data: Zoom: 20x Okular: 10x Lens: 2x Lighting: 40 mm mirror Working distance: over 55 mm Focus ring range: 40 mm Dimensions of the stage: 70 mm x 60 mm Height of the microscope (maximum): 24 cm The diameter of the base: 11 cm Weight: 790 g Included: hand rests (increase the comfort of work) table with loops for attaching the item Warranty 2 years
