

teleskopy.pl

The 50 mm diameter and 9x magnification with illuminated cross is ideal for finding objects in the sky, especially urban and suburban, where the backlight compensates for the lack of a completely dark sky and allows you to see better the intersection of threads - the center of the field view of the finder. Technical parameters â€¢ Zoom: 9 x â€¢ Lens diameter: 50 mm â€¢ Weight: about 300 g â€¢ Cross with threads yes, it is illuminated by a red LED Warranty 2 years
