

The Yukon Extend LRS-1000 is a modern laser rangefinder in the form of an optical monocular. It is characterized by a very large measuring book from 5 to 1000 meters. An additional feature is the ability to take speed measurements of objects (eg a car) - in this case, the measurement range is 5 - 300 km / h. Characteristics

- large measuring range from 5 to 1000 m
- short measurement time
- an infrared laser beam that is safe for the eye
- the rangefinder automatically turns off after 20 seconds of inactivity
- waterproof and dustproof in accordance with IPX5

Technical parameters

- Zoom: 6x
- Lens diameter: 24 mm
- Distance measurement range: 5 - 1000 m
- Speed measurement range: 5 - 3000 km / h
- Adjustment range: +/- 4 D
- Type of rangefinder: laser, 905 nm
- Displaying the measurement: in the field of view
- Temperature range: from -10 to + 45 ° C
- Power supply: CR-2
- Water resistance: YES, IPX5
- Dimensions: 98 x 75 x 54 mm
- Weight: 205 g
- Warranty 1 year
