

SEP 20-60 is a zoom eyepiece designed for Nikon's PROSTAFF 5 observing telescopes. It allows you to obtain 16-48x magnifications for the Prostaff 60 and 20-60x telescopes in the Prostaff 80 lunettes. Characteristic features

- bayonet mount with lock for easy assembly and disassembly
- Lenses coated with multilayer anti-reflective coatings
- water resistance
- large offset of the exit pupil
- new eyecups extendable rotationally

Elements of the set

- eyepiece with zoom
- two caps
- rubber eyecup
- cover / case

List of technical parameters of Nikon SEP eyepieces for the Prostaff 5 telescope
