

The ProStaff 3-9x50 spotting scope with a BDC thread cross has a 50mm lens is a universal sight that works well both on a bright day and in difficult lighting conditions. Characteristics

- optical system completely covered with multilayer coatings, which guarantees transmission of light up to 98%
- a large, fixed distance of the exit pupil guarantees the safety of the eyebrow, even when using loads that give the largest recoil of weapons, light carbines and sharp angles of firing
- accurate, manual adjustment of the thread cross with the signaling click after setting in the right position ensures faster aiming and preservation of settings even with large rejects
- Immediate return of the knobs to the starting position thanks to the spring knobs makes it easy to adjust the settings in the field
- Eyepiece with quick focusing allows you to set the focus instantly
- waterproof / anti-fog, nitrogen-filled, sealed

Technical parameters

- Zoom: 3-9x
- Lens diameter: 50 mm
- Optics: High-quality optical glass, MC cover
- Retracting the exit dust (mm): 91.0 (regardless of magnification)
- Step adjustment (mm / 1 click): 7 mm for 100 m
- Step adjustment (MOA / 1 click): 1/4
- Parallax adjustment range (MOA): 80
- Parallax adjustment range (m): 91 to infinity
- Reticle: BCD (Bullet Drop Compensation with ballistic circle marking, which makes it easier to correctly specify a destination point for distant targets)
- Field of view (m / 100 m): 11.3 (at 3x magnification) / 3.8 (at 9x magnification)
- Exit pupil: from 16.7 to 5.6 mm
- Tubus: 25.4 mm (1 in)
- Length: 318 mm
- Outer diameter from the side of the eyepiece: 44 mm
- Outer diameter from the lens side: 60.3 mm
- Weight: 495 g
- Warranty: 30 years
