The SPORTPOD suction cup is an irreplaceable accessory for quickly attaching the GoPro Hero camera to the glass and other flat, smooth surfaces. Thanks to the SPORTPOD suction cup, you can attach your camera to car windscreens or car body elements. The suction cup works with devices with a 1/4 inch tripod output - so you can use it to attach a camera or a small camera. The set is also suitable for all GOPRO HD Hero sports cameras - a tripod adapter with a GoPro camera exit (tripod adapter) included. Replacement. The product is compatible with all versions of GoPro cameras, i.e. Hero5, Hero 4, 3+, Hero3, 2, Original. The suction cup can be used, among others for fixing the camera to: • cars • motorcycles • quads • scooters • helmets • snowboards, skis • weapons (paintball, ASG) / product photos
