

The cap for GoPro cameras eliminates the noise created by the action of the momentum of air on the camera's casing. Thanks to the hood, the recorded sound will be free of unwanted noise associated with the momentum of the air. Sensational when recording at high speeds on a car or motorcycle. Ideally suited for Gopro Hero / Hero2 / Hero3 cameras in all versions (GoPro Hero, GoPro Hero2, GoPro Hero3 Black Edition, Silver Edition, White Edition, HERO4, Hero5) Additional product photos
