Delta Optical Starlight 12x60 binoculars with unique parameters, magnification 12x and lenses $\varnothing = 60$ mm. It is known that the lens diameter is the leading parameter for each binoculars. The binoculars, therefore, offer higher brightness and resolution than 50 mm or 56 mm binoculars, while still maintaining reasonably good dimensions and weight. We especially recommend astronomy enthusiasts to view the sky "from the hand" or from a tripod. Technical parameters

- Lens diameter: 60 mm
- Zoom: 12x
- Exit pupil: 5 mm
- Construction of prisms: porropryzmatyczna
- Material of glass elements: optical glass BaK-4
- Field of view: $5.3^\circ / 93 \text{ m} / 1000 \text{ m}$
- Removing the exit pupils: 18 mm
- Anti-reflective layers: MC
- Adjusting the focus: central + tuning in the right eyepiece
- Water resistance: splash-proof (resistance to spills, o-rings)
- Possibility of mounting on a tripod: YES, you need an L-adapter
- Dimensions: 210 x 78 x 205
- Weight: 1160 g
