

teleskopy.pl

Yukon Futurus 16x50 is a high magnification binoculars, designed primarily for field observation of nature over large distances. It works, among others in the observation of birds of prey or in the observation of goat antlers. High-quality TrueColour (TM) anti-reflective layers ensure high light transmission and image contrast. The ergonomic casing ensures reliable grip, and the performance and equipment of the binoculars allows it to be used even in difficult weather conditions. Includes a neck strap, lenses covers and glasses, and a carrying case with a belt

Technical parameters

- Lens diameter: 50 mm
- Zoom: 16x (fixed)
- Exit pupil: 3.1 mm
- Field of view: 70 m / 1000
- Eye relief: 10 mm
- Minimum observation distance: 10 m
- Construction of prisms: porropryzmatyczna
- Prisms: optical glass BaK-4
- Anti-reflective layers: True Color (TM)
- Possibility to connect a tripod: YES, standard 1/4 inch
- Focus system: central + tuning to eyesight
- Working temperature range: from -30 to + 40 ° C
- Dimensions: 185 x 215 x 70 mm
- Weight: 1020 g
