The City V370 case is made extremely solid with durable and thick 1950D TXP nylon. The hardened construction with soft filling and impregnation of the case guarantee effective protection of the equipment against mechanical damage and damping. City V370 combines modern design with functionality and high resistance to damage. The case has four main pockets and several smaller ones - internal. The set includes a shoulder strap. In addition, the case has a detachable "handle" and a belt attachment. The shoulder strap buckles are made of metal. parameters external dimensions: 14.5 cm x 13 cm x 16 cm (L x W x D) internal dimensions: 12 cm x 9 cm x 12 cm (length x width x depth) Weight: 270 g
