Wrist Housing is a wrist strap housing designed for HD Hero3 and Hero3 + cameras. Lets you carry the camera on your wrist like a watch. It allows the camera to be positioned relative to the wrist (adjustment in the axis perpendicular to the hand) to obtain the desired angle of the shot. The housing is waterproof (up to 60 m). Adjustable universal belt size, can also be worn on gloves and ski suits. Wrist Housing is great for surfing, diving or mountain climbing. The camera is always ready to work even if you do not have a pocket. The camera is in the hands. Velcro strap can also be used to attach the camera in strange places, for example, kitesurfers like to attach the camera to a trapper kite, and kayakers to paddle. The product is compatible with all Hero3 / 3 + / 4 cameras Construction: polycarbonate, stainless steel, neoprene and Velcro Elements of the set – HD Wrist Housing for Hero3 (housing) - 1 item – wrist strap made of neoprene and Velcro (universal size, adjustable) – 1 x rear flap, waterproof – 1 x rear flap, open – 1 x BacPac back flap. Warranty 2 years
