

teleskopy.pl

Lens enlarging to 2x with a Pulsar Challenger GS 1x20 night vision device. Its use allows you to increase the range of the night vision device both with the lighting and with the built-in illuminator by several dozen percent. Fast assembly with the thread present in the inner part of the lens 1x enables tight connection and quick disassembly and use of the night vision version 1x with head mounting. Doubler lenses have anti-reflection coatings and the lens housing is made of metal.
â€¢ Lens diameter [mm]: 55
â€¢ magnification [x]: 2
â€¢ weight [g]: 100
â€¢ compatibility: Pulsar 1x20 GS, Pulsar 1x20 Edge GS goggles
Warranty 3 years
