

Aluminum rotatable support for attaching to the helmet. Allows you to mount the camera on the helmet with screws. It is the most powerful mount for GoPro cameras available on the market. It can be used with a wide range of GoPro assembly accessories. The support has step adjustment of rotation and adjustment of the clamping force. Thanks to this, it is possible to change the camera's setting quickly and at the same time. Made of durable aluminum, it provides much more durability than plastic fasteners. Ideal for extreme situations when a durable camera mount is required. Replacement manufactured by Redleaf. • material: aluminum • two screws to be fixed in the set The product is compatible with all versions of GoPro Hero cameras, including the latest.
