

teleskopy.pl

Vortex Solo 10x25 - this monocular and its high quality optics can always be under your hands. This handy, compact telescope is ideally suited for outdoor enthusiasts who want to be even closer to nature. The multi-layered optics provide brightness in a compact, lightweight and handy form. The salt is waterproof, resistant to dew and impact. Monocular is suitable for everyone, from shooters to tourists. Multi-layer optic cover Very good layers, which cover the monocular optics, significantly increase the transmission of light. Layers were applied to all glass surfaces of the monocular.

Wodoodporno?æ Thanks to the use of seals, both moisture, dust and dust do not get into the center of the device.

Rubberized housing Provides a good grip, thus reducing the risk of the device slipping from the palm of your hand
