Vortex Diamondback 10x50 is a binoculars equipped with high-quality optics designed for hunters. These binoculars surprisingly help in the detection of game even in bad lighting conditions. Its advantages are a huge range - the largest in its class - anti-reflective layers, adjustable prisms, waterproof construction with a coating preventing condensation on the glass, flexible glasses and a rubberized body. Characteristics

- lenses that provide increased light transmission
- roof prisms
- phase coverage of prisms
- waterproofing ensures water resistance and prevents dust from entering the interior of the binoculars
- Argon filling prevents the optics from fogging inside the binoculars
- improved rubberized non-slip surface for a good grip
- adjustable protrusion of eye cups allows you to adjust their position to our needs, and thus a more comfortable observation
- central focusing allows you to set it in both glasses at the same time
- diopter adjustment in the right eyepiece

Technical parameters

- magnification: 10x
- Lens diameter: 50 mm
- Twilight efficiency: 22.4
- minimum focusing distance: 2.1 m
- angled field of view: 6 °
- linear field of view: 105 m / 1000 m
- offset of the exit joint: 17 mm
- eyecups: extendable
- distance between the glasses: 57 - 72 mm
- water resistance: yes
- gas filling: yes, argon
- lens coatings: FMC + phase covering of prisms
- possibility of connection to a tripod: yes (tripod adapter required)
- lifetime VIP guarantee: yes
- height x width: 173 x 170 mm
- weight: 839 g

Warranty Lifetime warranty: if anything happens to your binoculars, Vortex will repair or replace it with a new one. * The warranty does not cover the loss, theft or intentional destruction of the binoculars. Elements of the set

- binoculars
- carrying case
- neck strap
- optics cleaning cloth
- documentation
