

Binoculars Delta Optical Titanium 12x56 ROH Delta Optical 12x56 Titanium ROH is a modern open-plan roof-prism binoculars. The large brightness combined with the 12x magnification gives 4.7 mm exit pupil - good for the day and the light bulb. Recommended for observing antler ("on a goat"). High visibility of details and high-quality anti-reflective layers guarantee full satisfaction from the purchase. It also works well as general-purpose binoculars, in birds, nature and distant locations. Includes a neck strap, lenses covers and glasses, and a carrying case with a belt
