

# teleskopy.pl

A complete set for cleaning and maintenance of the Vortex VTX Fog Free optics. It is ideally suited for all types of sight-seeing, observation binoculars, binoculars, monoculars and other products requiring glass cleaning. The additional component protects and prevents evaporation. Suitable for glass and plastic lenses. A waterproof box with a porous

---

surface protects it from getting into the dust or moisture, and it can also be stored in a pocket or backpack. Features

- Soft brush brushes Ultra allows you to remove dust spots
- thanks to the use of a glass cleaner, they are not only cleaner for a longer time, but also do not reach a surface to settle
- Vor-Tek microfibre cloth allows easy removal of fingerprints and other streaks
