The latest series of Delta Optical binoculars - they are one of the smallest and lightest binoculars with a lens diameter of 32mm in the world! They weigh only 380 g and their height is only 10.8 cm. Despite such small dimensions, the binoculars offer a very large field of view - 7.5 ° for the 8x32 and 6.2 ° for 10x32, respectively. The nitrogen filling provides water and mist resistance. Includes a rigid, protective case and a very comfortable belt. Technical parameters
