

teleskopy.pl

The latest series of Delta Optical binoculars - ONE is one of the smallest and lightest binoculars with a lens diameter of 32mm in the world! They weigh only 380 g and their height is only 10.8 cm. Despite such small dimensions, the binoculars offer a very large field of view - 7.5 ° for the 8x32 and 6.2 ° for 10x32, respectively. The nitrogen filling provides water and mist resistance. Includes a rigid, protective case and a very comfortable belt. Technical parameters

- Lens diameter: 32 mm
- magnification: 8x
- angular field of view: 7.5 °
- Linear field of view: 131 m / 1000 m
- Exit pupil diameter: 4 mm
- twilight efficiency: 16
- relative brightness: 16
- prisms: BaK-4 roof
- dimensions: 109 x 91 x 61 mm
- weight: 380 g
- water resistance: yes
- nitrogen filling: yes
- sharpening system: central + tuning in the right eyepiece
