

Extremely light rangefinder COOLSHOT 40 with a measuring range up to 590 meters is specially designed to measure the actual distance, which is why it is the perfect choice for golfers. The first-priority priority mode allows you to measure the distance to the golf course on the golf course, visible against the background of trees. Thanks to the HYPER READ function, the distance is displayed instantly (after approx. 0.5 sec.), Regardless of the distance to the object. High-quality, multilayer coated 6x magnification coating provides a clear and clear image. Characteristics

- optics: 6x21
- measurement range: 7.5-590 m
- accuracy: ± 0.75 m
- fast (about 0.5 sec.)
- And stable measurement regardless of the distance - thanks to the HYPER READ function
- priority of the first plan
- angle compensation function: no (can be used in tournaments)
- ease of use
- small, light and resistant to rain

Technical parameters

- Measurement range: 7.5-590 m (pole with flag: 411 m, tree: 594 m)
- Accuracy: ± 0.75 m
- Measurement step: 0.5 m
- Measurement time: about 0.5 s
- Automatic shutdown: yes, after 8 seconds
- Measurement priority: the nearest object
- Measurement method: real distance
- Zoom: 6x
- Lens diameter: 21 mm
- Field of view: 7.5°
- Retraction of the exit pupil: 18.3 mm
- Power supply: CR2 lithium battery (DC3V)
- Water tightness and anti-fog protection: Yes
- Dimensions [mm]: 112 x 70 x 36
- Weight: 160 g (without batteries)
- Warranty 1 year
