

teleskopy.pl

The Crossfire 10x50 binoculars will surprise you with a solid workmanship, very good optics and an affordable price that your other half will surely accept. Completely new optical system, durable housing and modern design are entering a completely new route, where you will once again discover a series of Vortex Crossfire binoculars. Regardless of whether you're hunting, crossing wilderness or watching wild animals, Vortex Crossfire binoculars are your right choice. Characteristics

- lenses that provide increased light transmission
- roof prisms
- waterproofing ensures water resistance and prevents dust from entering the interior of the binoculars
- nitrogen filling prevents the optics from fogging inside the binoculars
- improved rubberized non-slip surface for a good grip
- adjustable protrusion of eye cups allows you to adjust their position to our needs, and thus a more comfortable observation
- central focusing allows you to set it in both glasses at the same time
- diopter adjustment in the right eyepiece
