

Laser rangefinder Nikon Prostaff 7i Rangefinder Nikon PROSTAFF 7i is a new generation in precision and range measurement distance. As one of the few rangefinders in its class, it provides the highest measurement accuracy of up to 600 meters, enables measurements up to a maximum distance of 1200 meters, has the smallest display step (0.1 m) and is one of the lightest rangefinders lasers on the market. The Nikon HYPER READ function provides a quick display of the measurement (about 0.5 seconds) regardless of the distance from the target. The powerful, small and light model PROSTAFF 7i works great in all field applications. Characteristics • measurement range: 7.3-1200 m • accuracy: ? 0.5 m (up to 600 m); ? 1 m (from 600 to 1000 m); ? 1.5 m (from 1000 m) • fast (about 0.5 sec.) And stable measurement regardless of distance thanks to the HYPER READ function • measured distance displayed in 0.1 m steps • single or continuous measurement (up to 8 seconds) • easy switching between distance mode and horizontal distance • system for switching the priority of plans enabling selection of the priority mode of the first plan or priority of the second plan. • small, light and ergonomic design Technical parameters • measuring range: 7.3 - 1200 m (deer: 914 m, tree: 823 m) • accuracy (real distance): ? 0.5 m (up to 600 m), ? 1 m (from 600 to 1000 m), ? 1.5 m (from 1000 m) • the step to display the actual distance: 0.1 m • measurement time: approx. 0.5 seconds • continuous mode: up to 8 seconds • automatic switch off: after 8 seconds • operating modes (selectable / setting): the priority of the near / distant object distance measurement in level / real distance measurement • LCD display in the rangefinder's field of view • magnification: 6x • Lens diameter: 21 mm • real field of view: 7.5° • Blow diameter: 3.5 mm • operating temperature range: -10 ° C + 50 ° C • water resistance: yes • power supply: 1 x CR2 • dimensions: 113 x 39 x 70 mm weight: 175 g (without batteries) Warranty 1 year (note: on the pictures Prostaff 7, in terms of appearance identical -
