

teleskopy.pl

Quilted, resistant bag designed for transporting the optical tube of Newton's 300 mm (12 ") and 1500 mm focal length telescopes (eg SK 300/1500 OTA, GSO DOB 12" 305/1500 tube). The maximum diameter of the tube is 45 cm, including the eyepiece extractor. A comfortable accessory pocket on the side of the bag. Can be worn like a backpack or like a travel bag. Features of Geoptik bags and cases Geoptik bags provide protection against moisture and mechanical damage of transported equipment. They are characterized by high quality workmanship and durability for long years of use. ergonomics Geopik bags have been very ergonomically designed and their use is very simplified. For example, placing a telescope in a suitable bag is much easier than in many competitive solutions. Moisture protection Geopik bags and covers guarantee protection against moisture and light rain. The cover is waterproof and the zippers are covered with a waterproof preparation for a better seal. Technical parameters â€¢ Maximum internal diameter: 48 cm â€¢ Minimum internal diameter: 44 cm â€¢ Length: 155 cm â€¢ Weight: 3kg â€¢ Material from the outside: nylon â€¢ Material from the inside: foam â€¢ Closure type: 2 sliders â€¢ Possibility to carry like a backpack: Yes â€¢ Safety closure: Yes
