

teleskopy.pl

Quilted, nylon - foam, resistant bag designed to transport the optical tube telescopes of the Schmidt-Cassegrain structure (Meade / Celestron SCT, ACF, EdgeHD) 200 mm (8 ") Can be worn in the hand or as a backpack. Features of Geoptik bags and cases Geoptik bags provide protection against moisture and mechanical damage of transported equipment. They are characterized by high quality workmanship and durability for long years of use. ergonomics Geopik bags have been very ergonomically designed and their use is very simplified. For example, placing a telescope in a suitable bag is much easier than in many competitive solutions. Moisture protection Geopik bags and covers guarantee protection against moisture and light rain. The cover is waterproof and the zippers are covered with a waterproof preparation for a better seal. Technical parameters
