Stainless steel straight needle with metal integrated knurled (non-slip) frame made of aluminum. The needles have a thicker and long aluminum frame, knurled for 2/3 of the length. As a result, they are more convenient to use than most needles on the market. The needle tip itself is made of stainless steel. ∅ total length: 16 cm ∅ handle length: 11 cm ∅ needle length: 5 cm ∅ handle thickness: 5 mm ∅ made in Poland
