

Quilted, nylon - foam, resistant bag designed to transport the optical tube refractor with a diameter of 100 mm f / 10, can also be used for 90 mm refractors. It is also ideal for tripods from SW EQ6, NEQ6 and Celestron Advanced VX. Provides safety and convenience during storage and transport. Features of Geoptik bags and cases Geoptik bags provide protection against moisture and mechanical damage of transported equipment. They are characterized by high quality workmanship and durability for long years of use. ergonomics Geopik bags have been very ergonomically designed and their use is very simplified. For example, placing a telescope in a suitable bag is much easier than in many competitive solutions. Moisture protection Geopik bags and covers guarantee protection against moisture and light rain. The cover is waterproof and the zippers are covered with a waterproof preparation for a better seal. Technical parameters â€¢ Dimensions: 110 cm x 20 cm x 15 cm â€¢ Weight: 1.3 kg â€¢ Material from the outside: nylon â€¢ Material from the inside: foam thickness 15 mm â€¢ Closure type: ZIP fastener
