Flashlight created for hunters - Fenix TK32. Its distinguishing features are primarily three independent LEDs: white, red and green. You can say that it's several devices in one. Facilitates the search for a rifle, it will work in military operations, and even in tourism - red, low-invasive light will allow you to light a tent without waking other people staying in it. The Fenix company is famous for producing durable, resistant and powerful flashlights. The TK32 model sustains this tradition - the flashlight meets the IPX-8 waterproofness standard, is resistant to fall, and its power is 900 lumens in turbo mode. Its range is also impressive: over 420 meters! The lovers of tactics and militia will also appreciate the inch tube that allows the flashlight to be mounted under the unit. Technical parameters model: Fenix TK32 power supply: 2 x CR 123 (not included) 1 x 18650 (not included) lighting power: 1000 lumens (according to the ANSI / NEMA FL1 standard) number of lighting modes: 8 (listed below) range: 422 meters waterproof: IPX8 lens: ultra clear glass, chemically reinforced, with AR coating body: T6 anodized duralumin (mil-spec) source of light: CREE XP-L HI V3 and XQ-E LED diodes lifespan of the diode: up to 50,000 h dimensions: length: 159 mm Body diameter: 25.4 mm 52 mm head diameter water resistance: according to the standard IPX8 weight: 180 g (without batteries) black colour Elements of the set TK32 flashlight case belt spare o-ring (gasket) Warranty 66 months (after registering at <http://latarki-fenix.pl/rejestracja-latarki>)
