

teleskopy.pl

A set of six filters dedicated to the built-in camera Dron Phantom 3 in the Professional and Advanced versions. â€¢ the set contains CP (polarizing) filters, ND8, ND16, ND32, ND8 / PL polarizing, ND16 / PL polarizing â€¢ precision threaded aluminum, filters replace the UV filter kit â€¢ light construction - the filters add a very small weight to the gimbal (from 1.2 grams of additional load) â€¢ cooperate only with DJI Phantom 3 Professional and Advanced The set contains six high-quality filters designed for filming from the air, practically in all lighting conditions. The filters are very light and have very precisely made surfaces. Replace the UV filter kit that is a standard Phantom 3 camera filter - they are screwed in instead of the standard filter. The kit filter weighs 3 grams, so by deleting it we capture 3 grams. When applying the heaviest of filters (ND16 / PL), the gimbal will be loaded only 3.36 g more than in the standard configuration.
