Tamed 3-12x56 HD IR is a high-performance telescope with the brightness typical of night hunting, although it can be used in any lighting conditions. In dusk and night conditions, light 56 provides very good visibility and recognition of the goal. Tamed 3-12x56 HD IR is a modern, well-designed telescope with a 30mm tube. Magnification in the range from 3 to 12 times predestines this telescope for all types of shooting. The telescope is equipped with a 4A cross with an illuminated central point in red and full regulation of the intensity of the backlight. The telescope is waterproof and nitrogen-filled. Optics covers included. Technical parameters

- Zoom: 3-12x
- Lens diameter: 56 mm
- Optics: High quality optical glass, FMC coverings
- Reticle: 4A with an illuminated dot
- Grid position: in the second plan
- Point correction: 1 wedge, 1/4 MOA, 7.2 mm / 100 m, maximum 60 MOA
- Field of view [m / 100 m]: from 11.6 to 2.9 m / 100 m (3-12)
- Field of view]: 6.8 ° - 1.7 °
- Exit pupil: 18.7 mm - 8 mm
- Retracting the output pupil: 125 mm
- Adjusting the focus: + / - 2 Diopters
- Number of central dot backlight levels: 12 (0-11)
- Power supply: 3 V battery, 2032
- Working time for 1 battery: about 100 hours
- Mounting: clamps 30 mm (available separately)
- Length: 342 mm
- Outer diameter from the lens side: 63.7 mm
- Outer diameter from the side of the eyepiece: 43 mm
- Weight: 403 g

Warranty 5-year manufacturer's warranty >> FREQUENTLY ASKED QUESTIONS and EXPLANATION OF BASIC NOTES << Question : Is the cross or point highlighted? Answer: The center point is highlighted.
