Spinor Optics Astro 15x70 is a very strong binoculars with 70 mm objective diameter and 15x magnification, perfect in astronomy, as well as nature observation and aircraft observation. The lenses were coated with MC anti-reflective layers. 4.4 ° flat field of view, Porro BaK-4 prisms guarantee very good image quality. Gorgeous binoculars for viewing the whole sky, learning constellations, observing nebulae, variable stars and searching for comets. Good for observation "from the hand", with the possibility of connection to any photo tripod - tripod adapter available separately (plastic 15 PLN, metal 30 PLN). Includes a neck strap, lenses covers and glasses and a carrying case with a belt.
