- â€¢ body: metal
- â€¢ anti-reflective layers: multilayered, on all surfaces
- â€¢ weight: 220 g
- â€¢ warranty: lifetime manufacturer's warranty, 2-year shop warranty

Manufacturer's description

The sophisticated and luxurious Levenhuk Broadway theater binoculars are the perfect combination of tradition and modern technology. These lorgnones are always in the spotlight and work great in any situation, whether it's an Italian opera or a Broadway show. The Levenhuk Broadway 325N red theater binoculars with gold accents are the perfect accessory for an evening out. Beautiful and elegant binoculars hides a very practical device. The central focus adjustment knob allows easy and quick adjustment. Adjustable eyeglass spacing allows you to perfectly adapt the binoculars to individual preferences, making the observation even more comfortable. LED lighting is irreplaceable when you want to discreetly find a place in low light conditions. The binoculars also use advanced optics. The full, multi-layered coating of the optical system provides a sharp and clear image even in the case of poor lighting in the theater. With 3x magnification, you'll see everything that happens on the stage, even if you're sitting on the first balcony or away. When setting the maximum magnification, the field of view is still wide enough to see the whole scene.
