Levenhuk Skyline 60/700 is a small, but effective lenticular telescope (refractor) with a lens diameter of 60 mm and a focal length of 700 mm. Due to its construction and dimensions, it is easily portable and can be successfully treated as an expeditionary telescope (for holidays, for the plot, for a trip out of the city), as well as an excellent equipment for balcony astronomy or observation and nature riflescope. This telescope allows you to conduct the first successful visual observations of planets and the Moon, showing a significant amount of details on the surfaces of these objects. In good observational conditions, it can reveal dozens of the brightest nebulae, galaxies and star clusters, mainly from the Messier catalog. A 1.25-inch focuser allows you to use any of the glasses made in this most popular standard. The whole is a perfect solution for beginners and intermediate enthusiasts of astronomy at a reasonable price. OFFERED TELESCOPIC LANDS TO START OBSERVATIONS IN THE FIRST FALLING NIGHT - INCLUDES ALL NECESSARY ACCESSORIES Usage Moon the planet star clusters nebulae scenery Technical parameters \varnothing Optical system: achromatic refractor \varnothing Lens diameter: 60 mm \varnothing Focal length of the lens: 700 mm \varnothing Lighted: 1 / 11.7 \varnothing Switching capacity: 1,8' \varnothing Theoretical range: 10.5 magnitude \varnothing Maximum useful magnification: 120x \varnothing Dimensions of the optical tube [cm]: 7 x 7 x 70 \varnothing Height of the tripod [cm]: 70 - 120 \varnothing Weight: 2.0 kg (3.5 kg in the package) Equipment The set includes the following accessories: \varnothing 1.25" focuser \varnothing Kellner glasses 1.25": 20 mm (over 35x, 105x with Barlow lens) and 4 mm (175x, used for the Moon and planets) \varnothing Barlow lens 1,25" / 3x \varnothing Angle plug 90 ° 1,25" \varnothing 6x24 targetting scope \varnothing AZ azimuth assembly \varnothing Lightweight, stable aluminum tripod with accessory shelf Warranty lifetime manufacturer's warranty, 2-year shop warranty ADDITIONAL MATERIALS READ : BEFORE BUYING TELESKOP - GUIDE FOR BUYERS [PDF] READ : A SHORT OPTICAL CLEANER GUIDE [PDF] READ : HOW TO GET A COMPACT WITH A TELESCOPIC [PDF] PLEASE READ : HOW TO GIVE A DIGITAL MULTIPLE TELESCOPE [PDF]
