

teleskopy.pl

Cover designed for transport and storage of a telescope or optical tube with maximum dimensions of 125 cm (length) x 30 cm (diameter), made of durable, waterproof material in an aesthetic graphic setting. The cover has a specially designed zipper for easy removal / insertion of contents. Robust design and attached handles allow convenient transport. The interior of the cover is lined with a layer of a sponge that protects the content from impacts. The bottom is additionally stiffened, which gives it stability. In the middle there is a quilted, spongy baffle, which can be used to transport the entire telescope (tube + tripod + assembly) to separate the parts.
• maximum tube length: 125 cm
• maximum diameter of the tube: 30 cm
You can fit into this bag, among others the telescope from Sky-Watcher Dobson 8 "/ 10", GSO Deluxe Dob 8 "/ 10", as well as complete telescopes (tubes with assembly):
• Sky-Watcher (Synta) BKP15075EQ3-2
• Sky-Watcher (Synta) SK1309EQ2
• Sky-Watcher (Synta) BKP13065EQ2
• Sky-Watcher (Synta) SK1149EQ2
• Sky-Watcher (Synta) SK1149EQ1
• Celestron Omni 150 XLT
