Feiyu Wearable FY-WGS is a 3-axis gimbal designed for GoPro Hero SESSION cameras. Works with a variety of attachments - suction cups, headbands, wrist straps - you can finally put on a GoPro SESSION for gimbal, and gimbal on yourself - and film with the previously unstable stability of the picture. It is not an exaggeration to say that it is a revolutionary product. ' Included in the set: gimbal, mountings, adhesives, 4 batteries, charger. Characteristics - 3-axis gimbal dedicated to the GoPro Session camera - gimbal automatically detects the position of the camera and adjusts its operation - switching on / off and changing modes with 1 button - automatic modes: pan following mode, pan & tilt following mode, lock mode, inverted mode - the attached cable allows you to connect a GoPro Session with a gimbal, allowing you to charge the camera from a gimbal battery and download an analog video signal, which can then be transferred to the external monitor via the microUSB. IN OUR OFFER WE HAVE GOPRO CAMERAS: the latest HERO SESSION, Hero4 Black and Hero 4 Silver and a wide selection of GoPro accessories (including Hero 3+, 3 and 2) - we encourage you to contact us. We are an Authorized Retailer of GoPro - our cameras and accessories from

GoPro come from the official Polish distribution and have a 2-year distributor warranty in Poland .
