Camrock Tank X65 is an enlarged version of the Camrock Tank X60. This bag is designed for professionals and amateurs who want to carry an above-average amount of equipment. Large capacity goes hand in hand with functionality and convenience of use. The use of the best materials guarantees high durability and safety of the transferred equipment. The bag has a mount for the tripod and a retractable rain cover. Features

- can accommodate 2-3 bodies, up to 12 lenses, several flash lamps and a number of other accessories,
- possibility of configuration up to 18 chambers,
- 2 zipped external pockets,
- 2 outer mesh pockets,
- 3 inner zipped pockets,
- straps for attaching tripod underneath,
- a retractable rain cover,
- rubber feet underneath,
- comfortable holders,
- adjustable shoulder strap with a soft pad,
- buckles securing the main chamber,
- metal belt buckles.

The main compartment, thanks to adjustable dividers, can be freely configured and divided into up to 18 parts. Any configuration ensures optimal use of space and perfect adaptation to the equipment and user's needs. The bag accommodates 2-3 bodies, up to 12 lenses, flash lamps and a number of other accessories such as a compact camera, camcorder, filters, chargers, remote controls, batteries, readers, etc. Camrock Tank X65 has many compartments and pockets to provide an excellent organization of accessories:

- two external pockets closed with a zip,
- two outer, mesh side pockets for carrying handy accessories,
- three inner zipped pockets.

The set includes a comfortable, adjustable shoulder strap, with metal buckles that facilitate quick assembly or disassembly. For maximum comfort the bag is also equipped with a carrying handle covered with a special layer of non-slip material. Underneath the bag there are special handles that allow you to attach a tripod with the fastening straps attached to the set. Camrock Tank X65 has been designed to provide the user

with maximum usability and protection. All the hems are made of specially selected, durable material and the wall is made of 680D TXP nylon, which ensures high resistance to external factors. The interior is made of foam covered with material which ensures even greater safety of the equipment being transported. The bottom of the bag is secured with special pads to better protect the equipment from moisture and damage. The set includes a retractable rain cover, which additionally protects the equipment from the effects of weather conditions. Materials from which the bag was made, guarantee its extraordinary durability. These are: 900D Polyester, 160D Polyester Ripstop, 680D TXP nylon, PE foam.
