

teleskopy.pl

The PROSTAFF 3-9x40 riflescope is a lightweight, compact solution for daytime hunting and group hunting.

Characteristics

- optical system completely covered with multilayer coatings
- a long distance between the exit pupil
- precise, manual adjustment with a click signal after setting the viewfinder in the right position
- immediate return of the knobs to the starting position thanks to the spring knobs
- adjustable lens that allows you to set the focus from 10 m to infinity
- a new, precise cross of threads adapted to shooting at a target from short distances
- eyepiece with quick focusing
- watertight / anti-fog, nitrogen-filled, sealed

Technical parameters

- model: PROSTAFF 3-9x40 BDC
- magnification (x): 3-9
- Lens diameter: 40 mm
- Excavation: 4.4 mm (with 9x magnification)
- distance of the exit ice: 91 mm (@ 3x) - 91 mm (@ 9x)
- Tube diameter: 25.4 mm
- Lens diameter: 50 mm
- external eyepiece diameter: 44 mm
- step adjustment: 7 mm at 50 m (mm / 1 click)
- adjustment range (height difference and correction for wind): 80 MOA
- parallax: set to 100 yards
- field of view: 5.6-1.9 m at 50 m
- length: 315 mm
- weight: 425 g

Warranty 30 years
