

Simple, fast and convenient - By using the Vortex VMX-3T magnifier for the StrikeFire collimator, you can increase the magnification of your collimator with the Vortex VMX-3T magnifier. The cap has been equipped with patented anti-reflective coatings, which allows for optimal transmission of light. Hardened anodised aluminum provides durability and resistance to damage. VMX-3T has been protected against retransmission by injecting nitrogen into its interior.

Characteristics

- â€¢ designed for StrikeFire, Sparc II and UH-1 (holographic) collimators

- â€¢ high quality anti-reflection coatings
- â€¢ tube sealed with O-rings ensures water resistance and protects the collimator from dust
- â€¢ nitrogen filling prevents internal evaporation
- â€¢ not recommended for prismatic collimators

Technical parameters

- â€¢ magnification: 3x
- â€¢ Lens diameter: 32 mm
- â€¢ distance from the eye: 5.5 cm
- â€¢ Tube diameter: 30 mm
- length: 10.9 cm
- â€¢ 337 grams
- â€¢ lifetime VIP guarantee: yes
- â€¢ in a set with rail mounting

Warranty Lifetime warranty: if anything happens to your telescope, Vortex will repair it or replace it with a completely new one. * The warranty does not cover the loss, theft or intentional destruction of the telescope.
