Innovation in binoculars with rangefinders - an integrated microSD card slot allows you to program your ballistics specific to your weapon - you specify the caliber and type of ammunition so that your weapons and binoculars work together perfectly. Determining the hit point is easier, safer and more accurate than ever before. The display is user-friendly, clear and most importantly, it can be adapted to your needs. The ABC system can calculate the calculated measurements in three different formats, which makes you ready for any hunt. Ambient temperature, atmospheric pressure and façade angle are automatically included in the calculation. You can also view these individual values by pressing the button. Technical parameters and features - rangefinder range: 10 - 1825 m - magnification: 8x - Lens diameter: 42 mm - Excavation: 5.2 mm - field of view at 1000 m: 130 m - minimum sharpening: 5 m - dioptre compensation: +/- 4 D - measurement accuracy: +/- 1 m to 500 m; +/- 2 m to 1000 m; 0.5% over 1000 m - display: LED 4 characters, adjusting the brightness to the surroundings - eyecups: adjustable height - 4 positions, suitable for people wearing prescription glasses - prism system: Perger-Porro System - coatings: HD? multicoating, AquaDura?

for easy cleaning • housing: magnesium • ergonomic shape - "banana shape" • waterproof: up to 5 m immersion • filled with nitrogen • dimensions: 125 x 174 x 70mm • weight: 975 g warranty: 5 years measuring modes: scanning or single battery life: 2000 measurements (at 20 ° C) • ballistic system: ABC • - 12 pre-programmed ballistic curves with the possibility of combining your own • display modes: distance equivalent in level, elevation of the aiming point, correction of clicks • included: belt, cover, covers, battery (CR2 type) Polish manual Warranty 5 years
