Levenhuk Wise monoculars are proof that worthy observation equipment can be made for very moderate money. The quality of the telescopes of this series (8x32, 8x42, 10x42) is surprising - we get solid, mechanically well-made and optically good telescopes - with adjustable eyecup, BaK4 prisms and fully coated with optics. The compact Levenhuk Wise 8x32 monocular is perfect for hiking and traveling. Do not you like carrying heavy, full-sized binoculars with you? This modern monocular with a roof prism is just what you need! Bird watching, hiking, extreme sports or admiring architecture - from Levenhuk Wise 8x32 Your favorite hobbies will become even more enjoyable! Optical possibilities of the Levenhuk Wise 8x32 model will surely surprise you. Lenses are made of high quality BaK-4 glass, which eliminates light loss, and also improves the sharpness and contrast of the image. Lenses are coated with multilayer anti-reflective coating. It allows you to reduce light scattering and internal reflections, making the image bright and saturated - even on a cloudy day. The 8x magnification allows accurate observation of even far-away objects with good detail. Monocular is primarily intended for daytime observation, but it also performs well in low light conditions. The monocular body is protected by a special rubber coating that absorbs vibrations. It protects the delicate optical system not only against shock or shock, but also against dust and water splashes. The eyecup is made of rubber, so you can easily stretch it to take the most comfortable position for observation. This feature facilitates the use of equipment for observers wearing glasses. Levenhuk Wise 8x32 allows you to quickly adjust the sharpness of the image with one hand - the knob is located at the center of the monocular. Technical parameters

- â€¢ Zoom: 8x
- â€¢ Lens diameter: 32 mm
- â€¢ Output: 4 mm
- â€¢ Retracting the output pupil: 13.6 mm
- â€¢ Prism: roof, BaK4
- â€¢ Field of view: 131 m / 1000 m / 7.5 °
- â€¢ Layers: FMC
- Minimum distance of observation: 2 meters
- â€¢ Tripod mount: no
- â€¢ Dimensions: 137 x 66 x 42 mm
- â€¢ Weight: 280 g
