

Fenix ARE-X1 - a single, intelligent charger dedicated to 18650 and 26650 cells. It offers charging the battery through a micro USB connection and discharging via the USB port. The indicator makes us informed about the status of the power supply of our cell. Features and parameters

- type: link 18650 and 26650
- power source: USB port
- number of independent charging channels: 1
- approximate charging time: 72 h to fully charge
- input current [USB]: 5 V, 1.5 mA (max)
- output current: 4.2 V, 1 mA
- charging / discharging diode: yes
- LED battery charge indicator: yes
- working temperature: -20 ° C to + 50 ° C
- operating humidity: 5% (0 ° C) - 90% (40 ° C)
- built-in protection against cell damage: yes
- overcurrent and overvoltage protection: yes
- short-circuit protection: yes
- protection and protection against reverse polarity: yes
- digitally controlled micro-chip, which extends battery life: yes
- car adapter included: yes
- dimensions: 104 x 32 x 32 mm
- weight: 42 g
