

teleskopy.pl

A great set - Orion Paragon-Plus binocular crane in the style of a parallelogram allows binocular observation from the horizon to zenith with perfect comfort. The set requires a tripod (tripod) with good lifting capacity and stiffness.

Technical parameters

- lifting capacity: minimum 3 kg / binoculars up to $\varnothing = 80-85$ mm
- fixation of binoculars: 1/4 inch (works both for binoculars with a foot on the central bar and fixed between the lenses)
- mounting the crane to a tripod: 1/4 inch
- tripod: not included, required tripod without head (with screw 1/4 or 3/8 inch)
- materials: aluminum + steel
- weight: approx. 5.7 kg
- Warranty 12 months
