

Plossla 12.5 mm / 1.25" eyepiece with LED illuminated double cross thread This eyepiece is indispensable for precise setting of parallarmal assembly with drives (drift control) and often used for centering GOTO, IntelliScope Orion systems or precise centering with manual guiding. The brightness of the cross illumination is adjustable. Okular has its own sharpness regulation for sharpening the cross with threads. parameters ∅ producer: Orion ∅ focal length: 12.5 mm ∅ own field of view of the eyepiece: 40 ° ∅ Luminaire diameter: 1.25" / 31.7 mm ∅ number of optical elements: 4 ∅ offset of the exit dust: 5 mm ∅ filter thread: yes ∅ backlight power supply: GP-189, SR-54, SG-10 or similar ∅ dimensions: 53 x 33 mm ∅ weight: 88 g Warranty 2 years (vision view through the eyepiece)
