

Removal battery S1-BT is a supplement to the standard set of Removu S1 gimbal. Being in the possession of an additional battery it is possible to keep the Removal stabilizer running - while one battery powers the remaining device (the Removu S1 battery charger supports two batteries at the same time) can be charged. Thanks to this, comfort and freedom of work are increased also in the most demanding and extreme conditions. The battery is an original Removu brand accessory that is fully compatible with the S1 stabilizer. The operating time of the S1 gimbal with battery is 3-6 hours (at 25 ° inclination angle). Technical parameters – type: lithium-ion – output voltage: 7.4 V – capacity: 850 mAh 6.29 Wh – dimensions: 34 x 45 x 12 mm – weight: 35 g – compatibility: Gimbal Removu S1
