

The Redleaf Waterproof Case for GoPro Hero 5 Black sports cameras allows you to shoot and shoot underwater up to a depth of 45 meters. In addition, it protects the camera from dust, moisture and mechanical damage. The Redleaf waterproof housing for Hero 5 Black allows you to take the flagship GoPro model much deeper into the water than the camera itself allows. The accessory is made of the highest quality materials. It has precisely contoured, sealed buttons that ensure trouble-free operation even when wearing gloves. The housing door has been sealed with a silicone gasket. The kit also includes a standard quick coupler and a mounting screw that allows you to use a housing with GoPro mounts. Before mounting the camera in the housing, do not disassemble the camera lens cover. Technical parameters
