

Dual charger allows quick and convenient charging of two batteries at the same time. Charging takes place via the USB port - so the charger can be connected either to a mains charger, to a USB port on a computer or to a car charger with a USB port. The charger is equipped with a LED operating / charging status indicator. Includes 1220 mAh lithium-ion battery for Hero5 Black. The product is compatible with GoPro Hero 5 Black cameras. Includes a Dual Charger charger, an additional battery for Hero5 Black and a power cord.
